A message to all visitors

Ishikawa Prefecture is a very safe region, however that doesn't mean it is free of crime. Your travels will be ruined if you become a victim of a crime. We want you to have pleasant memories of our prefecture so we would like you to be aware of the following.

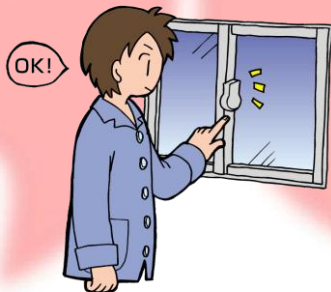

Look After Your Luggage

Do not leave bags with valuables in them unattended whilst travelling. Be sure to carry your bags in your hands or over your shoulder when on the move.

Lock Up

Be sure to lock your room when you stay at a hotel. Even if you leave the room temporarily don't forget to lock the windows as well as the door of your room.

In the event that you are involved in an incident or an accident, notify the police immediately and police officers will rush to the scene.

Dial 110 to Call the Police

Enjoy your travels
